

6th Grade

Sprints

Created by Bill Davidson

Page Number	Topics
1-2	Solving for m
3-4	Finding the value with two variables
5-6	Circling the greatest number
7-8	Circling the smallest number
9-10	Adding fractions with variables
11-12	Multiplying and dividing fractions
13-14	Adding and subtracting by 14
15-16	14s Times Tables
17-18	Finding the radius or diameter
19-20	Circumference and diameter facts
21-22	Finding complementary angles
23-24	Finding supplementary angles
25-26	Possible outcomes
27-28	Adding and subtracting with negative numbers
29-30	Multiplying with negative numbers

31-32	Dividing with negative numbers
33-34	Order of operations with negative numbers
35-36	Solving for x

Answer Keys

37-38	Solving for m
39-40	Finding the value with two variables
41-42	Circling the greatest number
43-44	Circling the smallest number
45-46	Adding fractions with variables
47-48	Multiplying and dividing fractions
49-50	Adding and subtracting by 14
51-52	14s Times Tables
53-54	Finding the radius or diameter
55-56	Circumference and diameter facts
57-58	Finding complementary angles
59-60	Finding supplementary angles
61-62	Possible outcomes
63-64	Adding and subtracting with negative numbers
65-66	Multiplying with negative numbers
67-68	Dividing with negative numbers
